

KRONOTEX Mammut High Performance German Laminate

Mammut – Style is here, philosophy of life

Authentic & Timeless Long Plank Design.

Strong laminate flooring that meets all expectations. The extra-long planks will fascinate you with their authentic natural-wood look and country estate personality.

KRONOTEX is 100% Made in Germany

Classic aesthetics and functionality are successfully combined here. Anyone who appreciates the unmistakable, natural-looking appearance of oak planks and, at the same time, wants maximum load bearing capacity, will find that Mammut meets both requirements. The perfection achieved in this way is rightly regarded as the top product among laminate floorings. As in all KRONOTEX collections, great importance is attached to sustainability.

With its particularly wide panels, MAMMUT PLUS makes for an extremely elegant atmosphere. And so this floor is particularly suitable for larger rooms, effectively underlining their spacious architecture. However, MAMMUT PLUS reveals its real greatness not only in its width, but also in its length. And that's not all: an immaculate natural wood look, realised to the highest degree of authenticity – there can hardly be a better combination of robustness and naturalness. MAMMUT PLUS is therefore the right choice for anybody who sets the highest standards for the ambience of their surroundings.

See the Decors

Whether you opt for more traditional colour nuances or a modern colouring in white or grey – with its particularly long and hard-wearing panels, MAMMUT is the crowning glory of the timeless country house look. Because this classic of laminate art effortlessly outlives all the stylistic changes of different epochs.
